D Copper Washers - to be used with solid copper rivets - Pkg 100

Precision Balanced

All Blademaster wheels are specifically engineered for use with Blademaster skate sharpening equipment.

8AS

8" sharpening wheel. High-performance aerospace grade grinds exceptionally cool and requires less cutting pressure for an optimal finish.

8MXC

8" ceramic sharpening wheel. The longest lasting skate sharpening wheel on the market. Multi grit.

8FR

8" sharpening wheel. The smoothest grinding action - recommended for competitive figure skates. Fine grit.

88R

8" sharpening wheel. Uniform grit structure yields a superior finish for recreational figure skates and goal skates. Fine grit for the best finish.

8MXRUBY

8" sharpening wheel. Premium ruby abrasive with a high chromium content. Well-suited to both carbon and stainless steels. Multi grit.

08RUBY

8" sharpening wheel. Premium ruby abrasive with a high chromium content. Open structure yields a cooler yet aggressive cutting action. Open structure.

8MXR

8" sharpening wheel. Cool cutting precision wheel for a wide variety of skate blades. Nitrated grain - multi grit.

8MXP

8" sharpening wheel. All-purpose wheel suited to all types of skates. Multi grit.
